Dear Mr. Henderson:

You are probably aware that we have received the final report of the National Capital Planning Commission approving our proposal to locate the Central Intelligence Agency headquarters building on a portion of the Bureau of Public Roads property at Langley, Virginia. We would like you to know we have decided to proceed with our plans for the development of that site.

We have selected the firm of Harrison and Abramovitz, of New York, as the architect engineer for the development of building plans. While we have not yet established a firm planning and construction schedule, we are hopeful that the actual building construction may begin early in 1957. We would like the privilege of referring to you representatives of Harrison and Abramovitz, or any consulting engineering firm they might engage, to discuss the provision of telephone service for the new building. We would like to reaffirm our requirement for limited telephone service at the site when construction begins. As requested by your office, we will provide notice at least 60 days in advance of the date this service is desired.
